

Community Impact

Mars Bank is committed to the mission of serving our communities through ethical and responsible business practices. We are dedicated to being a positive impact in the communities we serve.

The result of our commitment to these principles and practices is a team of people who have a significant effect in our communities through the work we do, the service we provide, and through our contribution of both time and money to a variety of organizations. In 2022 this totaled:

- Monetary Donations - over \$260,000
- Over 30% of the donations directly impacted low-to-moderate income individuals and families
- Company Sponsored Service Opportunities - 15 company-sponsored activities and events
- Total Volunteer and Service Hours - over 3,500

See www.mars.bank to learn more about our community involvement.
